

# UHU® ALL PURPOSE ADHESIVE SUPER STRONG & SUPER STRONG AND SUPER FAST ALL PURPOSE ADHESIVE IN A PRECISE DISPENSING SYSTEM

## PRODUCT DESCRIPTION

UHU All Purpose Adhesive Super Strong & Safe, the super strong and super fast adhesive in a precise dispensing system - without bonding fingers immediately. The patented formula remains adjustable for approx. 20 seconds and is suitable for virtually all flexible, solid, porous and non-porous materials. Withstands vibrations and shocks, is flexible, transparent and odourless. Humidity and temperature resistant from -50°C to +100°C.

The patented dispensing system ensures easy and precise application of the desired amount of glue, the container is stable and shock resistant.

The perfect solution for all sorts of small construction projects and repairs.

## FIELD OF APPLICATION

Universal - glues porcelain, ceramic, many plastic materials, metal, wood, glass, leather, rubber, Styrofoam®, paper, cardboard, and much more. Not suitable for leather clothing, textiles, Polythylene (PE) and Polypropylene (PP).

## PROPERTIES

- super strong
- super fast
- adjustable - no immediate finger bonding
- patented formula
- patented dispensing system
- easy, precise application of exact glue amount
- stable, shock resistant container

## PREPARATION

**Surface requirements:** Materials to be glued must be clean, dry and free of dust and grease.

## APPLICATION

### Directions for use:

1. Screw cap all the way down to pierce inner membrane. 2. Remove cap. 3. Press black wings slightly to apply the adhesive. Tip: do not press black wings before opening. Apply a thin layer of adhesive to one side. Press parts together. Glue joint remains adjustable for approx. 20 seconds. Surfaces to be glued together must be of exactly the same shape and size, dry and free of dust and grease. After use, wipe the applicator tip dry and close firmly.

**Stains/residue:** Remove wet glue stains immediately with acetone. Hardened glue can only be removed mechanically.

**Advice:** The thinner the glue layer, the faster and stronger the final bond.

**Points of attention:** Contains cyanoacrylate. Bonds skin and eyelids together in seconds. If product comes into contact with the eyes, rinse immediately with plenty of water and seek medical advice. In case of contact with skin, glue can be dissolved by soaking in warm soapy water. Then apply skin cream. Keep out of the reach of children.

## CURE TIMES\*

**Drying/Curing time:** approx. 20 to 60 seconds, which means that fingers don't get stuck immediately. Depending on the materials, UHU All Purpose Adhesive Super Strong & Safe forms a strong, reliable bond in 20 seconds to a few minutes.

**Final bonding strength after:** approx. 24h (fully stressable)

\* Curing time may vary depending on a.o. surface, product quantity used, humidity level and ambient temperature.

## TECHNICAL PROPERTIES

**Temperature resistance:** -50°C up to +100°C

## TECHNICAL SPECIFICATIONS

**Appearance:** colourless, clear

**Chemical base:** UHU development - partly consisting of cyanoacrylate

**Consistency:** Gel

## STORAGE CONDITIONS

Store in a dry, cool and frost-free place.

## PACK SIZES

tube: 7g

dispensing system: 3g

tubes: 3x1g in a box
