

**UHU®**

# TWIST & GLUE REFILL BOTTLE

## CONVENIENT REFILL BOTTLE FOR UHU TWIST & GLUE RENATURE SOLVENT-FREE

### PRODUCT DESCRIPTION

Convenient refill bottle for UHU twist & glue ReNATURE, the solvent-free multi-purpose adhesive in a soft and handy plastic bottle. The glue formula is made from 98 % nature-based materials and dermatologically tested. Ideal for a wide range of applications at home, at school and kindergarten, in the office, for crafts and modelling, etc. Washes out with soap. Bottle recyclable.

### FIELD OF APPLICATION

Universal - glues cardboard, paper, felt, leather, cork, fabrics, wood, among themselves and to metal, porcelain, glass, Styrofoam® and many plastic materials. Not suitable for photos, Polyethylene (PE) and Polypropylene (PP).

### PROPERTIES

- refill bottle for twist & glue ReNATURE
- formula 98 % nature-based
- solvent-free
- dermatologically tested
- washes out with soap
- recyclable

### PREPARATION

**Working Conditions:** Do not use at temperatures below +5 °C.

**Surface Requirements:** Materials to be glued must be clean, dry and free of dust and grease.

**Preliminary Surface Treatment:** When glueing plastics or metal, better results can be obtained if the parts to be stuck together are slightly roughened first.

### APPLICATION

#### Directions for use:

Thoroughly clean the surfaces to be glued (dry and free of dust and grease). Apply the adhesive thinly to one side; press in place. To refill UHU twist & glue bottles: 1) Turn the green ring clockwise to unscrew the complete applicator. 2) Refill the twist & glue bottle and re-screw the applicator anti-clockwise onto the bottle.

**Stains/residue:** Adhesive which has not yet fully dried, can be washed out very easily with cold or warm water. It is advised to machine wash dried adhesive at 40 °C using regular detergent.

**Points of attention:** The glue shall not be mixed with other adhesives. Before being refilled, the working bottle must be thoroughly rinsed with water. The adhesive is not affected by frost, i.e. after freezing the product will melt without its glueing properties being altered.

### TECHNICAL SPECIFICATIONS

Chemical base:	Dextrine
Colour:	Clear
Consistency:	Liquid
Density approx.:	1,18 g/cm <sup>3</sup>
Drying/Curing time approx.*:	< 1 minute
Final bond strength after:	24 hours
Minimum application temperature:	10 °C
pH-value approx.:	7,5
Rinseable with water:	Yes
Solvent free:	Yes
Transparent:	Yes
Viscosity:	Medium viscosity
Washable:	Yes
Water soluble:	Yes

\* Curing time may vary depending on a.o. surface, product quantity used, humidity level and ambient temperature.

### PHYSIOLOGICAL PROPERTIES

The dried adhesive is physiologically safe.

### PACK SIZES

refill bottle: 950g refill canister: 5580g

### STORAGE CONDITIONS

Store in a dry, cool and frost-free place.

Our advice is based on extensive research and practical experience. However, in view of the large variety of materials and the conditions under which our products are applied, we assume no responsibility for the results obtained and/or any damage caused by the use of the product. Nevertheless, our Service Department is always at your disposal for any advice needed.
