PROPERTIES

- Robust sealant gun
- For all common adhesive and sealant cartridges
- Suitable for easy to process sealants to very strong mounting adhesives

APPLICATION

Directions for use:

1. Pull the rod all the way back.
2. Push the cartridge firmly into the gun so that it can no longer be pulled loose.
3. Squeeze the handle until the product comes out of the cartridge.
4. Thanks to the Direct-Stop System the product stops flowing as soon as the handle is released.
5. Hold cartridge with one hand and pull rod all the way back with the other hand.
6. Use the small release handle to release the cartridge.
