PROPERTIES

Fast working Highly effective cleaning For universal use

APPLICATION

Directions for use:

Spray from a distance of 20-30 cm on the surface. Allow it to work and dry. Repeat in case of stubborn filth re. Rub with paper or cellulose tissues for optimal cleaning. Check the surface before spraying for thermoplastics such as rubber, PVC, Plexiglas, polystyrene and simple varnish paints before spraying. Remove the liquid with an absorbent cloth and let it dry outside. **Points of attention:** The usual precautions for aerosols must be observed.

Note: This information is the result of carefully executed tests. This Technical Data Sheet has been prepared to the best of our knowledge to provide you with advice when gluing. We cannot be held responsible for the results or any damage suffered, as the variety of factors involved (type and combination of materials and working method) are beyond our control. Users have to carry out their own checks and trials. Liability can only be accepted for the consistently high quality of our product.
