

# UHU® PATAFIX PROPOWER

## 21 ULTRA STRONG, REMOVABLE AND REUSABLE GLUE PADS

### PRODUCT DESCRIPTION

UHU patafix PROPower – the practical and ultra strong helper for do-it-yourself and repair tasks! The ultra strong, repositionable and reusable glue pads fasten, affix and repair, clean and permanent, objects up to 3kg (in optimum application conditions) on different surfaces. UV-resistant and moisture-resistant, thus suitable for indoors and outdoors. 1000's of uses all around the home and for do-it-yourself tasks. Dermatologically tested.\*

\*UHU patafix ProPower achieved the result "VERY GOOD" in dermatological tests carried out by the independent institute dermatest®.

\* The maximum adhesive force of 3 kg is attained under optimum application conditions: Affixing a flat object (depth < 1cm ) on a smooth surface (metal) at ambient temperature under application of a minimum of 6 pads by observing the below mentioned usage hints.

### FIELD OF APPLICATION

Thousands of applications all around the home and for DIY tasks such as "Third Hand". UV-resistant and moisture-resistant, thus suitable for indoors and outdoors.\* Fixes objects of all kinds up to 3kg on various surfaces. The maximum load of 3kg is achieved under optimal conditions, i.e. flat objects (depth < 1cm) on smooth, solid surfaces, using a minimum of 6 pads, at room temperature (see user instructions).

\*Humidity resistant if on smooth surfaces such as metal, glass and plastic, but should not be permanently exposed to weather influence. Not suitable for delicate materials or surfaces. Do not use on recently painted areas and wallpaper. Try on small sample first.

### PROPERTIES

- Ultra strong, removable and reusable
- For fastening, affixing and repairing objects
- Suitable for indoors and outdoors
- Dermatologically tested
- Made in Germany

### PREPARATION

**Personal safety:** Keep away from children: Danger of confusion with chewing gum.

**Surface requirements:** Pull off the required quantity of UHU patafix PROPower. Knead until it becomes soft. Distribute glue pads uniformly on the back side of the object to be attached (depending on the size of the object, every 5-10 cm), in doing-so, apply firm pressure. A glue pad equals a bonding surface of approx. 3 cm<sup>2</sup>. Fix the item in place by pressing firmly to the surface to which you want to attach it.

### APPLICATION

**Coverage:** silicon- treated paper, film

### Directions for use:

1) Pull off a glue pad and 2) knead until soft. 3) Distribute evenly (every 5-10 cm, depending on size of object to be fixed). 4) Fix by pressing firmly. 5) To remove, carefully detach the object by applying light rotational motion or by pulling it off from surface. To reuse: repeat from 2).

**Stains/residue:** Possible residue can be removed by dabbing with another glue pad. UHU patafix may leave a greasy mark on absorbent surfaces; this can usually be removed with benzine.

### TECHNICAL SPECIFICATIONS

**Appearance:** Strips of adhesives pads

**Chemical base:** modified polybutene caoutchouc

**Colour:** Grey

**Consistency:** Solid

### STORAGE CONDITIONS

Product should be stored in a dry, cool and frost free place.

### PACK SIZES

21 Glue pads
